NILESH PATASKAR

Pune, Maharashtra, India • +91 8888082914 • nileshpataskars@gmail.com • [LinkedIn](#)

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building scalable web applications using React, Next.js, Flutter, .NET, and SQL Server. Skilled in crafting performant user interfaces, designing secure backend APIs, and engineering optimized databases. Experienced in reusable component architecture, Agile collaboration, and delivering clean, maintainable code with ESLint.

CORE SKILLS

React.js, Next.js, SQL Server, .NET 5 / C#, Java, React Native, JavaScript, TypeScript, Flutter, TailwindCSS, Framer Motion, Node.js, Python/Django, Microservices, RESTful APIs, Git & GitHub, Docker, Kubernetes, Postman, CI/CD, Unit Testing, Azure Devops

PROFESSIONAL EXPERIENCE

Full-Stack Developer — Globatech Group

Pune, India | Feb 2025 – Present
- Developed and optimized responsive SPAs using Next.js, Material-UI, and modern state management.
- Implemented RESTful APIs in .NET 5 and optimized T-SQL procedures for high-volume data operations.
- Engineered dynamic Telerik Reports (PDF/Excel), reducing report generation time by 30%
- Utilized Azure DevOps to manage sprints, track tasks, and streamline end-to-end Scrum processes.
- Collaborated with stakeholders to scope requirements and deliver scalable features.

Full-Stack Developer — Uphomes (DezineXpert)

Remote | Oct 2023 – Nov 2024
- Led frontend development using Next.js with modular component architecture.
- Built React Native modules that increased mobile engagement by 40%.
- Worked on creating few API and bugfixes using JAVA as backend and SQL server
- Improved performance using lazy loading, caching, and bundle optimization.

Full-Stack Developer (Freelancer)

Remote | Jul 2022 – Jan 2025
- Delivered high-performance landing pages & websites using React and Next.js.
- Created reusable UI component libraries to speed up multi-client development.
- Integrated APIs, admin dashboards, authentication, and payments.

Software Engineering Trainee — Pitney Bowes

Pune, India | Jan 2022 – Jun 2022
- Developed Python / Django APIs and automation tools.
- Resolved full-stack issues in React and Node.js systems.
- Participated in sprint cycles, requirement discussions, and code reviews.

SELECTED PROJECTS

DezineXpert **(React, Python/Django)** — Built SaaS modules for interior designers.

Rahi Industries **(React)** — Product catalog website. https://rahi-industries.vercel.app

Granny's Treat **(React, Framer Motion)** — Animated landing page.

PhysioGhar **(React, Tailwind)** — Clinic website.

Mantaprabha **(React, Tailwind, Framer Motion)** — Branding agency website.

EDUCATION

Bachelor of Engineering (Computer Engineering)
Ajeenkya DY Patil University, Pune | 2019–2022 | CGPA: 9.3/10
Diploma in Computer Engineering
DY Patil Polytechnic, Pune | 2016–2019 | 83%

CERTIFICATIONS

• Full Stack Web Development — PrepBytes
• Database Foundations — LinkedIn Learning
